

PROGRAM

The Surgical Technology program is offered at the East Central College Rolla Main campus located at the Rolla Technical Center. Surgical Technology is a one-plus-one-degree program which prepares students to practice as surgical technologists (ST). Upon graduation, students will receive their Associate of Applied Science Degree in Surgical Technology and will be eligible to take the national certification examination administered by the National Board of Surgical Technology and Surgical Assisting (NBSTSA) to obtain certification. Surgical Technologist work in a variety of settings including hospital surgery units, surgical centers, labor and delivery, dentists/oral surgeons offices, veterinary offices, travel companies, and central sterile supply units.

EMPLOYMENT & SALARY OPPORTUNITIES

The surgical technology profession is experiencing faster-than-average job growth. Employment for surgical technologists is projected to grow 6 percent from 2023 to 2033, according to the Bureau of Labor Statistics. On average, a surgical technologist will start with an annual salary of \$59,160 (\$29.03 hourly).

Surgical technologists find opportunities in several areas:

- Hospital surgery units
- Outpatient surgical centers
- Labor and delivery
- Dentists/oral surgeons offices
- Veterinary offices
- Travel companies
- Central sterile supply units

CAREER

Surgical Technologists are vital members of the surgical team. Surgical technologists work under the supervision and delegatory authority of a surgeon to facilitate the safe and effective conduct of invasive and non-invasive surgical procedures, ensuring that the operating room environment is safe, that equipment functions properly, and that the operative procedure is conducted under conditions that maximize patient safety. Surgical technologists are experts in the theory and application of the principles of asepsis and sterile technique to combine the knowledge of human anatomy, surgical procedures, and implementation and tools and technologies to facilitate a physician's performance of invasive therapeutic and diagnostic procedures.
