# Welcome

to East Central College's Fine & Performing Arts program, a cultural resource dedicated to presenting, developing, and advancing the best in performing arts and arts education. Through the years, the Patrons of the Arts program has provided funds for hundreds of cultural experiences for thousands of students and community members.

This season we will present world-class artists along with phenomenal student performances to engage and inspire you. All of this would not be possible without ECC's Fine and Performing Arts faculty, staff, and the support of the Patrons of the Arts.

## Film & Lecture

The Film and Lecture Series brings acclaimed documentaries and narrative films, scholars, authors, journalists, and poets to campus throughout the year. The series is designed to enhance essential components of education by providing audiences with avenues for exercising critical thought, appreciating various forms of artistic expression, and deepening cultural understanding.

## Art

The ECC Art Gallery's mission is to enhance education and to culturally enrich the daily life of art and design majors; ECC students, faculty, and staff; and the broader community. The Art Gallery hosts exhibitions that may pose questions or offer a new and differing point of view, thus serving as an educational resource. The artwork in a given exhibit may inspire the viewer in terms of content, beauty, or materials, thus acting as a place of cultural enrichment. By creating a place of repose or mental uplift, the Art Gallery serves to enhance campus life.

## Music

The music department maintains a standard of excellence in the curricula and programs it offers. Students are inspired by solo and ensemble performances, festivals, workshops, and a guest artist series. The educational and cultural opportunities provided by the music department enrich both the college and community. ECC is an accredited member of the National Association of Schools of Music.

## Theatre

ECC Theatre provides students with academic training and practical experience in a nurturing yet challenging educational environment as well as serving as a cultural touchstone for the surrounding community. The department produces multiple mainstage shows per year, affording ample performance and learning opportunities.

## Psychology and Sociology

Community members have the opportunity to make a connection between the struggles of their loved ones and the community resources available to help them. Our presenters are afforded an opportunity to help the ECC community gain a better understanding of their mission and purpose, in hopes of making better connections to enhance and improve their lives.

## Culinary

The ECC Culinary Arts Department is accredited through the American Culinary Federation and offers our students a top-tier look at skills and standards expected in the Culinary Industry today. Instruction is given by ACF certified faculty and staff, and curriculum is enhanced by guest speakers and demonstrations from local chefs and industry peers. To experience all facets of a food service operation while remaining in the classroom, students plan, cook and serve at The Restaurant at Prairie Dell each spring. Some seats are reserved for Patrons of the Arts.

### Silas Coggeshall, "Body of the Home"

June 6 - August 25

Drawing on utilitarian motifs such as the extension cord, the work references childhood memories of Midwest, working-class life in rural Illinois. Using the tools like trompe-l'oeil, the mixed media paintings re-contextualize lowbrow objects like his mom's bric-a-brac into highbrow paintings that break the rules of flat space. Consequently, the pieces challenge the viewer to reconsider the stereotype of a banal existence in a "flyover state" as one rich in meaning and value.

### ECC Art Faculty Exhibition, "Visual Acuity"

September 1 - 29

From photography to drawing, from digital art to painting, from design to ceramics, ECC Art & Design Faculty inspire students and the community with their view on the world. Visit the gallery to see the world through our art faculty's eyes.

### Nicole Foran, "Mirror, Mirror"

October 6 - 27

The theory of quantum mechanics suggests that all possible outcomes deriving from every circumstance, are carried out within their own distinct universes. This series is a visual exploration of collisions within the multiverse, where parallel lives are fleetingly merged into one. Memories and formative experiences are slammed together in cyclical layers, revealing unseen and imagined narratives. The purpose of the work is to engage the community in inclusive and meaningful discussions regarding the construction of social and personal identity and how both are in an ongoing process of creation and destruction.

### Mid-Missouri Fine Arts Society, "Annual Members' Exhibition"

November 7 - December 2

Reception: November 11

Mid-Missouri Fine Arts Society, an organization of local artists, annually presents their artworks at ECC. Members work in a variety of media, including pastels, graphite, watercolor, oil paint, photography, and ceramics. The Mid-Missouri Fine Arts Society began in 1974 to promote and contribute to the interest in fine arts. Members of this local organization are active artists and art enthusiasts and work in a variety of media, including pastels, graphite, watercolor, oil paint, photography, and ceramics.

### Jennifer Printz, "And Then Measure The Shadow"

January 24 - February 14

This series materializes air, expanding and contracting it in space while clouds defy gravity. As the sky spills across the wall or onto the floor, one moment is stitched to another, emphasizing the collection of days that make up a life and the ongoing process of time. "This work is also an homage to my past, the time I spent as a child learning to sew with my great-aunt, and the many hours spent at my grandmother's Singer."

### John R Hamilton III & Mark Freeman, "Odyssey: A Search for Structured Organisms"

February 22 - March 23

Artist Demo Day: March 23

Deep space exploration and the necessity to locate further intelligent life is eminent. With the discovery of new planetary systems, organisms become further from the familiar specimen we are accustomed to on Earth. Development of innovative and efficient technology is as crucial as ever. Join us and explore, as we share our interdimensional thoughts, inventions and biological specimen.

### **"Trap"**

October 6 - 8 • 7:30 p.m. October 9 • 2 p.m.

By: Stephen Gregg Directed by: Grace Austin

An incomprehensible event: every person in the audience of a high school play falls unconscious — every person but one.

Using interviews with witnesses, loved ones, first responders, and the investigators pursuing the case, a theatre ensemble brings the story of the strange event to life, documentary-style.

But as the strands weave together into an increasingly dangerous web, it becomes clear that this phenomenon might not be entirely in the past.

Unnerving, exhilarating, and wildly inventive, you've never walked into anything quite like Trap.

Rated PG for frightening situations

The stakes are higher than ever in this hilarious, dynamic stage musical as SpongeBob and all of Bikini Bottom face the total annihilation of their undersea world...and just when all hope seems lost, a most unexpected hero rises up and takes center stage. Join us for this amazing adventure under the sea - the Broadway musical for everyone!

Originally commissioned by Prison Performing Arts, the play was initially developed with the playwright & performed by inmates at Women's Eastern Reception, Diagnostic, and Correctional Center in Vandalia, MO.

Run-On Sentence, tells the story of cellmates whose lives are turned upside down by the arrival of a new inmate. Both moving and funny, the play asks: should people be defined by our worst mistake?

July 20 - 22 • 7:30 p.m. July 23 • 2 p.m.

By: Stephen Schwartz Directed by: John Anglin

A small group of people help Jesus Christ tell different parables by using a wide variety of games, storytelling techniques and hefty doses of comic timing. An eclectic blend of songs, ranging in style from pop to vaudeville, is employed as the story of Jesus' life dances across the stage. Dissolving hauntingly into the Last Supper and the Crucifixion, Jesus' messages of kindness, tolerance and love come vibrantly to life.

The Speaker Forum will feature local mental health agencies and local mental health professionals addressing these contemporary issues and providing a toolkit to help us intervene with our loved ones who are struggling with mental health.

### Restaurant at Prairie Dell

*March - April*

The Restaurant at Prairie Dell was a collaboration project with Chef Hirschi and Chef Palazzola. The idea was to give the students as much real life experience in all facets of a food service operation while remaining in the classroom.

The Restaurant at Prairie Dell provides that platform. Students are rotated weekly through various roles like line cook, bakeshop, server, dishwasher, and even dining guest, in order to observe the full experience through multiple lenses. First-year students are the labor force, and are assessed on how well they follow instruction and manage their station. Advanced students help write the menu, and are the management team. This implies a sense of peer management that is essential in climbing ANY ladder within an organization. It also raises the bar on the students before they graduate. It's one thing to do the work themselves, it is another to get the work done through a team. When service goes so smooth they say "Chef we don't need you anymore today," it means the instructors have done their jobs.

### Donors Social

*April 27 • 5-7 p.m.*

Anyone who donates to any East Central College Foundation program is invited to the Donor Social. This event allows donors to see the inner workings of ECC in a new and exciting way! The culinary students will provide hors d'oeuvres, instructors will be on hand to speak with donors and students will be demonstrating different works of art.
